

MRSA RESISTANT CONNECTED BED RAIL PROTECTORS

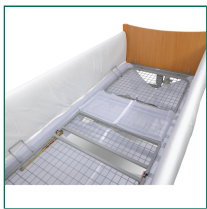

Features & Benefits

MIP's Full length connected bed rail protectors are designed for use on healthcare profiling beds. Bumpers are connected with a mesh base that sits under the mattress which helps secure them in place and forms a safety net to help prevent entrapment between the mattress and the bottom of the side rails.

The split mesh base ensures these bed rail protectors are ideal for use with profiling beds in a healthcare enviroment.

Flame Retardant to British Standard BS 7177.
