## Features & Benefits

**Cromptons Healthcare by MIP Slings** are high backed slings and have been developed in collaboration with caregivers and healthcare professionals to provide a cost effective patient handling solution.

**Loop Slings** use colour coded multi-loop straps that provide easy visual reference for balanced angle adjustment. For use with hoists fitted with loop spreader bars.

The slings incorporate many key features that will both assist and simplify manoeuvring procedures for the caregiver, whilst offering superior levels of dignity and comfort to the patient including:

- Padded and quilted for support, comfort and patient skin protection
- Folding head support
- Patient manoeuvring handle
- Colour coded loops for easy balanced angle adjustment (loop sling)
- Wash warning indicator
- Three colour coded adult sizes
- 230kg weight capacity

Cromptons Healthcare hoist slings are patient specific, intended for single patient use and to be disposed of when soiled or no longer required. The use of patient specific hoist slings is a simple aid to infection control procedures, helping to combat MRSA and other infectious pathogens.

These products are also available through NHS Supply Chain:
